Dear Todd:

It's hard to believe we have made it through another tax season and are scheduling open book and board of review for 2010.

I wanted to take a moment to commend you on the excellent job you did for the Town of Polar on the 2009 revaluation. Overall I think it went quite well and the problems we did encounter were resolved quickly and efficiently. I would expect nothing less from you based on the maintenance performance you have provided us over the years.

I checked out your new website today and think the assessment data lookup is going to be a great tool that I can pass on to town residents. See you in May!

Sincerely,

Mary Pavék
Town Clerk
